iAPPROVE LENDING

FHA – Condominium Properties

In order for a condominium property to be eligible for an FHA loan, the condo project must be identified as a "HUD-Approved" condo project.

In order to verify whether the subject property is within a HUD-Approved project, please submit the full name of the condo project/association as well as the complete address of the subject property to newloan@iapprovelending.com.

You may also visit https://entp.hud.gov/idapp/html/condlook.cfm to directly verify if the subject property is within a "HUD-Approved" condo project.
