

FHA Case Number Request Process

Please Note: If an FHA case number has been previously pulled for the subject property, please contact iApprove Lending to verify our Lender ID # in order to have the case number transferred to us.

For new case number requests:

- 1) iApprove Lending must be given a completed and active loan application (1003) from all borrowers.
- 2) Documents verifying each borrowers' date of birth and social security # must be provided. All this information is needed to properly submit a case number request.
- 3) Please provide a complete loan submission package to newloan@iapprovelending.com.
